JOINT WARFARE CASE STUDY PRESENTATION

One of the highlights of the operational phase was the Joint Warfare Case Study Presentations. Every sub-syndicate presented a case study on a historical battle. Syndicate 1A presented on the Battle of Guadalcanal by Allied Forces against the Japanese in World War II. Then, Syndicate 1B presented on the Battle of Leyte in the Philippines. Syndicate 2A presented on the Battle of Inchon in the Korean War and followed by Operation Corporate between the British and the Argentine over the Falkland Islands presented by Syndicate 2B. The presentations included an overview of the battles or operations and more importantly, analysis of the factors that led to the operation's success or failure.

Present during the presentations were the Commandant of DA RBAF, the Directing Staff of Command and Staff Course (CSC) and the Directing Staff of the Leadership and Management Centre (LMC). The case study was an opportunity for the JSC 2014 students to understand and analyse battles based on the different functions of joint operations (command and control, intelligence, manoeuvre, fire, protection and logistics) and how they related to the principles and theories of war. The question and answer sessions were very interactive and provided a better understanding of the operations and its analysis.

OPERATIONAL PHASE EXAM

On 19 November 2014, the JSC 2014 students sat a written exam organised by the CSC Directing Staff. The purpose of the exam was to test the knowledge and understanding gained throughout the Operational Phase including the teachings of Sun Tzu, Clausewitz, Liddle Hart; historical battles; joint operations doctrines and several other topics covered during the phase.

STAFF RIDE PRESENTATIONS

On 20 November 2014, the JSC 2014 syndicates gave presentations on the Republic of Indonesia as part of their preparation for their staff ride. Syndicate 1A presented on Colonialism and its impact. Syndicate 1B presented on the 2004 Tsunami. As for Syndicate 2A, a presentation on Indonesian Democracy was delivered followed by Syndicate 2B which presented on the Challenges Against Terrorism and Extremism in Indonesia.

INDONESIA – THE JOURNEY TO INDEPENDENCE

Staff Ride 23 - 29 November 2014

JSC 2014 delegation comprising students and directing staff visited Indonesia from 23 to 29 November 2014 for this year's JSC Staff Ride. The delegation visited two cities, namely Jakarta and Yogyakarta. Upon arrival at Soekarno-Hatta International Airport, Jakarta on 23 November 2014, the delegation was greeted by Lt Col Haslen bin Hj Hassan, Brunei Darussalam's Defence Attache to Republic of Indonesia.

In Jakarta, the delegation visited several military establishments. Among them were Indonesia's National Defence Headquarters (Mabes TNI), Navy Marine Corps (Marinir), Headquarters of Strategic Reserve Command Army (KOSTRAD) and Indonesian Peace and Security Centre (IPSC). From the interaction and questions raised during these visits, the JSC students gained better understanding of Indonesia's current focus on maritime territories, military capability enhancement and its plans to further forge closer ties and cooperation with its regional neighbours. Issues on extremism and terrorism were also discussed with the delegation being briefed on Indonesia's current strategy in applying increased soft power to counter these problems. Further, during the visit to Indonesia's Peacekeeping Centre in Sentul, Bogor the delegation was given an insight into Indonesia's National Military (TNI) ongoing commitment to support UN peacekeeping missions since its first deployment to Egypt in 1957. This is evident during the visit where the delegation was briefed on the mission of the Peacekeeping centre to prepare and train Indonesian military personnel for UN peacekeeping missions. To realize this mission, a 7-in-1 peacekeeping centre has been built amongst which consist of Counter-Terrorism Training Centre, Standby Forces HQ and Disaster Relief Training Centre.

Other places of historical interest which the delegation visited in Jakarta included the Declaration of Independence Museum, National Monument (MONAS) and Lobang Buaya Museum (*Monumen Pancasila Sakti*). These places signified Indonesia's road to independence from Dutch colonialism and struggle against communism in the 1960s. On the fourth day, the delegation left Jakarta and headed east towards Yogyakarta for a 2-day cultural tour. Amongst the places visited were Yogya Kembali Museum, Karaton Museum and General Soedirman Museum. The highlight of the trip to Yogyakarta was the visit to the Borobudur Temple, a UNESCO World Heritage Site in the Kedu Valley in the southern part of Central Java. The delegation toured the magnificent compounds of the famous Buddhist temple which was built in the 8th and 9th Centuries AD during the reign of the Syailendra Dynasty. Overall, the staff ride to Indonesia was a significant learning experience for the JSC students and helped them to understand better the roots and history of one of Brunei's close and important ASEAN counterparts, Indonesia. Most importantly, from the military point of view, the staff ride has given the students a tremendous opportunity to understand Indonesia's military organisation structure and to forge networking for further military cooperation enhancement with Indonesian officers in the future.
